

## Structurally Deficient Bridges on the National Highway System

Consult your state DOT for the most up-to-date status of bridges.

Area of Detail:

Note: The bridges displayed on this map represent the results of a combined BTS/FHWA effort to geocode bridges from the FHWA's National Bridge Inventory (NBI). With the exception of Kentucky and Pennsylvania, whose most current data is 2006, all data is from the 2007 NBI. Of the 90 structurally deficient NHS bridges in Louisiana, 3 could not be geocoded because of insufficient data. Structurally deficient bridges are not necessarily unsafe; all public road bridges receive regular safety inspections. The bridges listed were categorized as structurally deficient at the time the maps were developed.

Bridge Label	Structure ID	Bridge Description	Location Description
1	24504503600412	I0310	0.41M SOUTH OF I-10
2	22600063000001	LA0048	0.05 M N OF HUEY LONG BR
3	625200180400531	US0011	US0011
